# ASCOSCOPY 2019

# Invitation in Chicago

# ASCOSCOPY 2019 *in Chicago*

With the increasing subspecialisation in oncology it is becoming more and more demanding to have the overview in the own field as well as in other fields of oncology. **ASCOSCOPY** is the scientific medical session in which the key data of this year's ASCO Annual Meeting are summarized and discussed. As in the past, the objective of the 10<sup>th</sup> **ASCOSCOPY** meeting is to help you to complement the medical information obtained by yourself with the highlights in other fields selected and presented by independent Swiss Experts.

To celebrate the 10<sup>th</sup> anniversary of **ASCOSCOPY**, Prof. Dr. Tony Mok (Hong Kong) will give a special lecture.

This multi-sponsored «Swiss evening» is the ideal way to meet your colleagues and discuss the most recent data in an informal and relaxed setting. It will be held on **Monday, June 3<sup>rd</sup>** at 18h45 at the Hyatt Regency in Chicago.

We are looking forward to welcoming you at the **ASCOSCOPY** 2019 meeting.  
Kind regards.

**Prof. Dr. F. Stenner**  
(Chair of the **ASCOSCOPY** event)

**Prof. Dr. S. Peters**  
(Chair of the **ASCOSCOPY** event)
